DEMO EVENT DESCRIPTIONS

Dark Age Demos [All Weekend Long at the Cool Mini or Not Vendor Booth]

This is no place for weakness, only through courage and determination can a man hope to endure in the savage wasteland.

Dark Age: Apocalypse brings this gritty, D20 driven, post-apocalyptic miniatures game to your tabletop. With a number of different factions to choose from, we'll give you a look at the core mechanics, the rich and steeped setting of Samaria and a chance to explore this unique game. Are you tough enough to survive on the surface of Samaria or will you discover the truth in the games slogan "Everything Dies"?

Deep Wars Demos [Friday and Saturday: 12:00pm - 7:00pm]

DeepWars by Antimatter Games is a tabletop wargame where forces battle below the waves of a lost underground ocean beneath a frozen southern continent, vying for control over ancient cyclopean sunken ruins and wrecks holding powerful artifacts and golden treasure. Players command warbands from one of four main forces, developing their warriors as they gain experience through combat, exploration and recovery of treasure. The game system has rules for 3-D combat representing models 'swimming' above enemies, sea floor flora and fauna that can be as dangerous, if not more dangerous as your opponent's warband and a full campaign system allowing players to customize stock profiles as they gain experience or even create their own force using any manufacturers models.

We will be covering the core mechanics of the game and introducing you to the 4 main races and miniatures. The demos will be run on your choice of three premier demo boards. A shallow sea floor reef of sharp corals and teeming with predators and prey, a undersea kelp forest blocking line of site throughout all depth levels and concealing your enemies or a deep ocean abyssal plain of hydrothermal vents, spewing boiling water and covered with dangerous sea life. Both environments have unique rules that offer different tactical options to the players. If you like Lovecraftian monsters, "Journey to the Center of the Earth" type of fiction or anything underwater themed, this game is something you need to check out.
